“Making our environment Anger-Free Zones”

‘I am a powerful being, living in a no-anger zone. I understand they have a reason for what they did.

I use patience and acceptance. It is my protection and empowerment.’

I. Introduction

Anger is a result of our wrong thinking in response to people’s behaviour or situations.

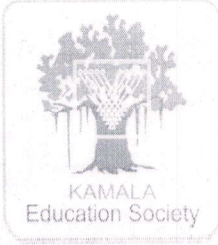

Anger creates turbulent energy in the mind, moving it from its natural state of ease. Uncomfortable emotions like anxiety, stress, pain, confusion and hatred are triggered. Judgment becomes clouded, intuition becomes impaired and we react impulsively. Our thoughts, words and behaviour go out of control. Our choices and decisions often go all wrong. Our nature, qualities, habits, perspectives, priorities and principles... all are different. Given that we spend a lot of time interacting with others, our various layers of strengths and weaknesses come to the fore. Living or working near people often gives rise to differences, disagreements or personality clashes. Right then, we start using the biggest counter-productive emotions —rage.

Paradoxically, we seek peace and happiness in life, but use anger to achieve it. Negative energy created through anger can never add up to positive emotions. When people or situations are not our way, we get angry. But regardless of our circumstances, anger is our choice, our creation.
