Parents Teachers Association PTA Report 20

Academic Year 2020-21

Our college has been strongly supported by parents since its establishment. This has given us the opportunity to move forward for our students' development and to gain an expected outcome.

The teachers and authorities of **Pratibha College of Commerce And Computer Studies**, strongly believe the collaborative efforts of teachers and parents which helps our students who are brought up under humanity and care of parents, and college to develop and grow healthily. Endowed with a strong sense of responsibility, they will mind and respect others when they grow up and become pillars of our society in the future.

By taking this into an account, we planned to form 'parents and teachers' group' (which will work virtually in the pandemic situation), with the following objectives:

- To promote connections and communications between parents and teachers
- To help parents to better understand their ward's needs and to arouse their interest and involvement in building their career
- To assist in promoting educational and recreational activities

Key takeaways from the gathering:

- Parents will be informed about your wards' performance
- Parents will be reported about internal assessment marks and attendance
- Parents will be informed about the date of the parent teacher meeting to be held.
- Parents will get updates on "students enrich programs" organized by college/ individual department
- Parents' valuable feasible feedback/ suggestions (if any) on any relevant issues can be accepted and implemented with prior the discussion with higher authorities

- Interested Parents can contribute their precious time and can share their views/knowledge among all by organizing events / delivering lectures
- Any other topic

The committee has decided to send the invitation to parents to join the group for their ward's betterment. The invitation to be sent to the parents through mail and text messages, containing above mentioned objectives and outcome, is prepared with prior permission of authorities. The convener and committee members with the help of IT support are working on the task to reach out to the maximum number of parents.

Social Engineering

What Is It?

Social Engineering is the clever manipulation of Human tendency to trust.

Where it is used?

Social Engineering is a technique that is mostly used in following type of crimes-

1. Matrimonial Frauds
2. Friendship Gift Frauds
3. Honey Traps etc.

How its done ?

Cyber Criminals stalks the victim over Social Media and Cyber Space. They acquire every tiny details about their target person. Then they create Fake Profiles which are more compatible as per the targets personality, their likes and dislikes, their ambitions and aspirations. Then, they get in touch with the target and acquires their TRUST of such level that the minor things that can arise suspicion in general will not be noticed by

How to be safe?

- Don't get connected with anyone over Cyber Space, whom you don't know personally.
- Make sure you have Privacy Setting set to safeguard your privacy.
- Don't

The guest speaker Mrs. Mridula Ghodake has explained very well all the basic and advanced situations regarding the topic with real life examples.

We received positive feedback from our participants. Their ratings are represented through the following bar graph

Students Feedback:

How Satisfied were you with the session content of Guest lecture?

5 responses

We were also pleased to receive such encouraging feedback from the parents. Some of the comments and suggestions from students have been mentioned in the following graphic.

We treasure the contributions and time spent with our Parents participants. The encouraging feedback from the parents had been a success. It created significant awareness among the parents and helped them express themselves.
