A Zine is most commonly a small circulation publication of original or appropriated texts and images. More broadly, the term encompasses any self-published unique work of minority interest, usually reproduced via photocopier.

This activity is a zine making competition. The activity is inter related to all the seven days . ! We have given everyday theme for making Zine which was related to our subject Computer Science. 2 days were a warm up exercise for the main activity. Everyday participants shall receive participation certificates and final winners shall be announced and certified in the college and their artwork gets a chance to be mentioned in the college magazine and much more surprises.
Student has to make Zine based on given theme. Student should submit that online within given time limit. For first three days we announced 3 winners. After forth day they should make zine. We found 3 winners out all entries. There were some rules for this process as follows.
