To: Prof Harshita Vachhani <profharshita@gmail.com>

My experience of placement:

When I joined the pratibha college for the course Bsc(CS), I just had a dream to be placed in an IT firm.But I was unaware of the path to reach my goal.

College,teachers and especially Dr Harshita mam had supported my dreams and helped me to become a corporate ready professional.

All subject teachers helped me to become technically strong.And various events and competitions conducted by College helped me to develop my personality and communication skills.

In addition to this in second year of our college Dr Harshita Vacchani mam has organized soft skill session,which really helped me to become industry ready.

So In final year I was all set for the interview.I was feeling confident because I was strong both technically and professionally.

I faced interview with confidence and got selected in MNCs like wipro,cognizant and infosys.

Now I am working in cognizant as programmer trainee.
