Hi maam,

I was part of PCCCS for 5 years graduation and Masters. I am at a successful position due to my teachers and their guidance. A special thanks to placement cell who keep on mapping our profile to companies until we are placed.

Currently I am working in Infosys Limited and I was placed through pool campus after my graduation in 2017 and my package was 2.18 Lakhs at that time.

In the college we had many competitions like quiz, presentation, coding, etc which are now useful for me at work as I was very well groomed in college for that. Also I was a part of Quick Heal Activity which was organized by Placement cell to build confidence in the students. I still remember in that activity we visited many schools to spread awareness about different types of hacking techniques.

I would like to thank the whole family of PCCCS from bottom of my heart and I always proudly say that I am from PCCCS.

Thanks,
Chanchal
