Anti-Sexual Harassment Committee
Gender Sensitization Committee

REPORT ON ESSAY WRITING COMPETITION ON HIV/AIDS AWARENESS

An Essay Writing Competition on **HIV/AIDS Awareness** was organized by Anti-Sexual Harassment and Gender Sensitization Committee of Pratibha College of Commerce and Computer Studies Cinchwad on **16th July 2026** at **PCCCS Library Reading Hall**. The programme was organized with the objective of creating awareness among students about HIV/AIDS, its causes, modes of transmission, prevention, treatment, and the importance of eliminating stigma and discrimination against people living with HIV/AIDS.

Total **26 students** were participated from different department of college. The competition provided students with an opportunity to express their thoughts and ideas on various aspects of HIV/AIDS awareness. Students actively participated in the competition and wrote essays on topics related to HIV/AIDS prevention, the role of education in creating awareness, the importance of early testing and treatment, and the need to show empathy and support towards people living with HIV/AIDS.

The participants demonstrated their knowledge, creativity, and sensitivity while addressing this important social and public health issue. Through their essays, students highlighted the significance of accurate information and responsible behaviour in preventing the spread of HIV. They also emphasized that HIV/AIDS awareness should be promoted through education and that misconceptions, fear, stigma, and discrimination must be addressed.

The competition successfully encouraged students to think critically about HIV/AIDS and its wider social impact. It also contributed to spreading the message that **awareness, prevention, compassion, and support** are essential in the fight against HIV/AIDS.

The best entries were evaluated by the appointed judges based on content, originality, relevance to the theme, organization of ideas, and language. The winners were felicitated with certificates and prizes.

Names of the winners are as follows:

1) Muskan Shaikh TYBSc CDS
2) Iqra Chaudhary SYBCom CA
3) Yashswini Rokade SYBCom CA

The event concluded with a vote of thanks to all the participants, judges, faculty members, and organizers for their valuable contribution to the successful conduct of the competition.

Scanned with OKEN Scanner

The programme was an effective initiative towards creating awareness among students and encouraging them to become responsible and informed members of society.

Outcome of the Programme:
The essay writing competition successfully enhanced students' awareness and understanding of HIV/AIDS and encouraged them to promote accurate information, prevention, empathy, and a stigma-free attitude in society.

Topic: Creating Awarness on HIV/AIDS: Knowledge, Prevention & Compassion

"Many People are suffering from HIV & AIDS are not killed by the disease but by the 'stigma surrounding' around the HIV-patient"

— Nelson Mandala....

This is the clear message given by nelson mandala that 'Soial discrimination' is the major cause of HIV/AIDS suffering patient and to overcome with this Awarness, knowledge, Prevention and most important Compassion is must needed tool.

HIV (Human Immunodeficiency Virus) and AIDS (Acquired Immunodeficiency Syndrome) is not only an medical condition but an Social Challenge which effect millions of People world wide. Although treatment has improved greatly over the year. But people still remain untreated because of lack of Awarness, knowledge and Prevention measure.

There is various myth about HIV that it is spread through hugs, shaking hands, or skin contact which creates an

Scanned with OKEN Scanner

fear and social discrimination for HIV/AIDS patient's. As we know Education + knowledge + Awarness creates prevention & Compassion towards the patient suffering from this disease.

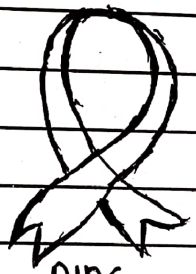

In 1987, Princess Diana given an strong message, by shaking hands and giving hugs to an HIV patient and say's that this is not a disease which is spread through physical contact. This type of strong message given by an great personality great's an major impact.

Every HIV/AIDS suffering patient knowa's about it's con's but the people surrounding around them are remain unaware which create an psychological pressure to an patient. So there is an measure need of 'Awarness Campaign', 'Educational center for AIDS/HIV', 'Promoting prevention measure toward HIV'; and most importantly having Compassion: pity nature toward an HIV/AIDS patient.

On 1st December there is an 'International AIDS Day' but there is not an single major awarness program held in are surrounding — This kind of ignorance itself create's an fear, unsecure, and unnotice toward HIV/AIDS suffering patient

As India has an National AIDS Control Organisation, which launced an National AIDS Control Programme (NACP) in 1927 which play an major Role in Reducing HIV infections. It promotes awarness, provides free HIV tests, counselling, ensure safe blood transfusions & offer free ART Therapy. to people living with HIV. These efforts have helped improve the quality of life for thousands of people across the country

The "Red Ribbon Campign" has become an international symbol of Awarness, Hope and Solidarity towards an HIV living patients

By Spreading Correct information, support those affected, and standing against the discrimination, toward them. In an duty of each and every individual we as an Sovety have an power to create an AIDS-free future where every HIV/AIDS patients treated with dignity, hope, & respect

"Let's Come together to end the stigma against AID survivors"

— Living Human which have an Knowledge.

Title → The Virus is Not the Biggest Enemy - Our Silence is!

Good morning respected judges, teachers, and my dear friends.

Before I begin I want all of you to imagine something.

Imagine tomorrow, one of your classmates is diagnosed with HIV. Would you sit beside them? Would you share your lunch with them? Would you shake their hand? Or would you quietly move away because of fear and what people might say?"

If your answer is "yes" then congratulations - you understand humanity. But if your answer made you hesitate, don't worry. That hesitation is exactly why we need to talk about HIV and AIDS today.

Red Ribbon

"Spread Awareness, Not Fear."

The truth is, HIV is not just a health issue. It is also a social issue. For decades, people have suffered not only because of the virus but because of society's misconceptions, fear, and discrimination.

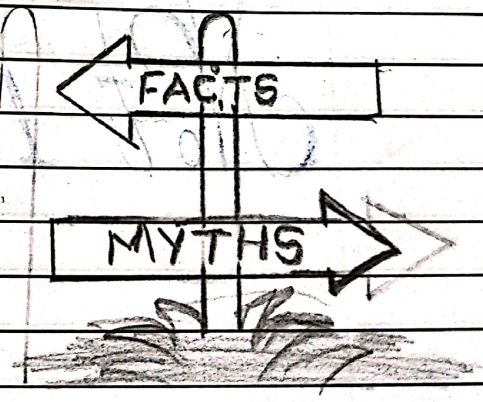

There is an invisible virus that spreads much faster than HIV. Do you know what it is?

It is ignorance.

Many people still believe that HIV spreads through a handshake, a hug, or by sharing food. But these are only Myths. HIV does not spread through touching, sitting together, or sharing a classroom.

The real danger is misinformation. Because of these myths, people living with HIV are often treated unfairly and made to feel different.

"The real danger is misinformation."

Awareness is not simply knowing that HIV stands for. It means choosing facts over fear and compassion over judgement.

Remember, a person with HIV is not defined by their illness. They have dreams, feelings, and deserve the same love, respect and opportunities as everyone else.

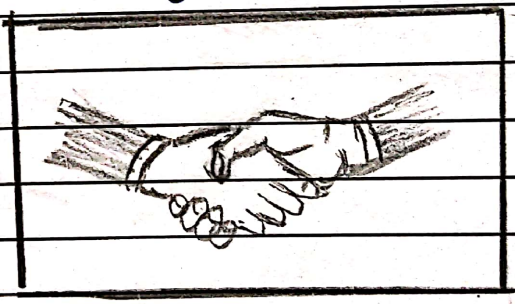

Before I conclude, I want to ask you one question:

What kind of society do we want to build - a society that judges people for one that supports them?

HIV does not spread through touch, but kindness does. Awareness does. Compassion does.

Let us become the generation that spreads knowledge instead of rumours and humanity instead of fear.

Thankyou.

HIV doesn't define a person.

Humanity does.

"HIV/AIDS रोखण्यासाठी युवा"

एचआयव्ही / एड्स रोखण्यासाठी युवा पिढीची भूमिका अत्यंत महत्त्वाची आहे. तरुण लोक शिक्षणाचा प्रसार करू शकतात, सुरक्षित सवयींचा वापर करून आणि आजाराविषयी समाजात असलेले गैरसमज दूर करून लोकांना मदत करू. जो शरीरातील रोगप्रतिकारशक्ती कमकुवत करतो.

यामुळे होणारी एड्स (Acquired Immunodeficiency Syndrome AIDS) हा आजार होतो. आजच्या काळात तरुण पिढी या समस्येचा सामना करण्यासाठी सर्वात मोठी ताकद बनू.

तरुण पिढी समाजात मोठा बदल घडवून आणू शकते; तरुणांनी शाळा, महाविद्यालये आणि गावांमध्ये जाऊन एड्सविषयी खरी माहिती दिली पाहिजे. यामुळे समाजातले गैरसमज दूर होऊ शकतात. तरुणांनी स्वतः सुरक्षित लैंगिक वर्तनाचा अवलंब केला जाऊ, तर इतरांना कंडोमच्या वापराबद्दल जागरूक केले पाहिजे.

Scanned with OKEN Scanner

(Safe Blood Donation) रक्त घेताना किंवा देताना ते एच आयव्ही मुक्त असल्याची खात्री करणे आवश्यक आहे. युवकांनी सुरक्षित रक्तदानाबद्दल समाजात जागरूकता निर्माण केली पाहिजे. समुपदेशन आणि चाचणी जर एखाद्याला संसर्गाचा संशय असेल, तर त्यांनी घाबरून न जाता नजीकच्या रुग्णालयात एच आयव्हीची गुप्त चाचणी करून घेतली पाहिजे. लवकर निदान झाल्यास औषधोपचार सुरु करणे. सोपे जाते.

तरुण हे बदलाचे खरे दूत आहेत. जर प्रत्येक युवकाने दृढ निश्चय केला की, "मी स्वत: सुरक्षित राहीन आणि इतरांनाही सुरक्षित ठेवीन," तर आपण भारतातून एड्सचे उच्चाटन करु शकतो. युवकांच्या सकारात्मक दृष्टिकोनामुळे आणि प्रयत्नामुळे एचआयव्हीमुक्त समाज निर्माण होवू शकेल आहे.
