ANNUAL REPORT

MINORITY AND CASTE CATEGORY WELFARE COMMITTEE / EQUAL OPPORTUNITY CELL

Academic Year 2024–25

The Minority and Caste Category Welfare Committee works to support students from different social and economic backgrounds by creating awareness about educational and financial support schemes and promoting equal opportunity. The Committee provides guidance on scholarships and welfare schemes and encourages student empowerment through initiatives related to career guidance, employment and entrepreneurship. It works to ensure that students from all categories, including the open category, are aware of relevant opportunities and support.

During the academic year 2024–25, information about students belonging to Minority, SC/ST and NT categories was collected and compiled to facilitate communication and sharing of relevant opportunities. The Committee's WhatsApp group was used to circulate scholarship notices, scheme updates and information about committee activities.

1. On 28 August 2024, the Committee conducted an intercollegiate online Scholarship Awareness Quiz Competition, in which 539 students participated. The rules and regulations were shared in advance, and the 30-minute quiz included questions on scholarship schemes available to students across different categories. Students actively participated and answered the questions with confidence. The competition provided an engaging way to increase awareness of scholarship opportunities and the financial support available for pursuing higher education.

2. On 22 January 2025, the Committee organized an online guest lecture on "Scholarship Schemes" through Microsoft Teams, attended by 120 students. The session was conducted from 11:00 a.m. to 12:30 p.m. by Mr. Vinod D. Ranpise, Office Superintendent, Mamasaheb Mohol College. The resource person explained various government and non-government scholarship schemes for SC/ST, NT, minority and open-category students. He discussed eligibility criteria, required documents, and the opening and closing dates of scholarship applications. The interactive session helped students understand the available schemes and the procedure for applying.

These activities helped students enhance their awareness of scholarship opportunities, understand eligibility and application requirements, and explore financial assistance available for higher education.
